

APRIL 2023 | CALL FOR APPLICATIONS

# QUANTITATIVE RESEARCH METHODOLOGIES I

Are you a student feeling daunted by the prospect of quantitative research? Our FREE introductory course is designed to give you a solid foundation in the basic concepts needed to conduct successful quantitative research. From study design to the research process and descriptive statistics, you'll learn practical skills to prepare your research and to collect and analyze your data. You'll explore measures of central tendency and spread, including mean, median, mode, range, and standard deviation. Our interactive lessons and practical exercises are tailored to support your learning, whether you're just starting out or need a refresher. Most of the content will be presented in an interactive online course which is supported by weekly Zoom sessions.

## ZOOM SESSIONS

11th April, 3pm  
18th April, 3pm  
25th April, 3pm  
2nd May, 3pm  
9th May, 3pm  
16th May, 3 pm

(Central African  
Time)

## WHAT WE EXPECT

- active participation in weekly Zoom sessions
- willingness to invest 5 hours weekly into course to honour your facilitators' time and efforts
- completion of the interactive exercises in the online course which will be graded individually by our facilitators

## WHAT YOU RECEIVE

- a solid understanding of the basic concepts of quantitative research
- individual tutoring and personalized feedbacks on challenging assignments
- a certificate of completion
