Technology enhanced
TEACHING AND LEARNING

February 2024 | Call for Applications

This course is for everyone who wants to discuss how to apply traditional teaching and learning principles to the digital realm. Thus, we welcome both lecturers and students.

ZOOM SESSIONS

1: 15TH FEB 13:00 PM
2: 22ND FEB 13:00 PM
3: 29TH FEB 13:00 PM

TIMES ARE INDICATED IN CENTRAL AFRICAN TIME

This course will present universal learning principles and investigate how they can be applied to digital teaching. Some of these principles are scafolding and sequencing, chunking, lesson duration, active learning and rehearsal. While technical solutions will be presented, the course also aims to make you competent decision-makers and confident lecturers who choose their digital teaching methods wisely.

WHAT WE EXPECT

- participation in at least 2 out of 3 Zoom sessions
- willingness to participate in a lively online discussion with your peers

WHAT WILL YOU GET?

- relevant and up-to-date knowledge on the subject of e-learning shared by an experienced online lecturer
- exchange with peers on the topic of E-teaching in their institutions to find best-practice solutions

Ready to apply? Please apply via the online form here: https://www.digiface.org/application-forms/ Application deadline: 12 Feb '24. Questions? Contact karlien.potgieter@mandela.ac.za.
