Micro-credentials allow you to manage your academic growth in focused, achievable steps

Micro-credentials offer a flexible, step-by-step pathway for academic and professional development. Each completed micro-credential earns a stackable badge, with four linked badges leading to a DIGI-FACE Short Learning Programme (SLP) certificate.

The first SLP, Foundations of Academic & Professional Document Presentation, is designed for postgraduates across disciplines. Its verifiable certificate is supported by transparent, internationally aligned quality assurance, providing credible evidence of competence in academic and professional document production.
