

Quantitative RESEARCH METHODOLOGIES 1

OCT 2026 | CALL FOR APPLICATIONS

This course introduces Students and post-graduate students to the basics of the quantitative research process and descriptive statistics. it can also be used as a refresher course.

ZOOM SESSIONS

1 OCT 2026 / 16H00
8 OCT 2026 / 16H00
15 OCT 2026 / 16H00
22 OCT 2026 / 16H00
29 OCT 2026 / 16H00
5 NOV 2026 / 16H00
12 NOV 2026 / 16H00
19 NOV 2026 / 16H00

CENTRAL AFRICAN TIME

The course covers the most important aspects of quantitative research methodology such as setting up hypotheses and the operationalisation of phenomena of interest. Additionally, it introduces participants to data management on Excel and the creation of simple graphs. With regards to statistics measures of central tendency, measures of spread and correlations are discussed.

The course consists of self-directed learning on the Moodle platform and eight synchronous Zoom sessions.

Please note that a consecutive course which covers inferential statistics will be taught later this year.

WHAT WE EXPECT

- participation in at least 6 out of 8 Zoom sessions
- completion of the activities and assignments on Moodle

WHAT YOU GET

- new knowledge and skills useful for your academic career
- an official certificate of completion by DIGI-FACE
